Summary

BCA graduate with strong fundamentals in web development. While developing these projects, I faced challenges with database connectivity, real-time messaging, and deployment. I solved these issues through debugging, testing, and referring to technical documentation, which helped me improve my problem-solving skills and practical development knowledge.

Skills

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Postman, Vercel, Render

Projects

TechStore - Full-Stack E-Commerce Website | *Next.js* **July 2026 – August 2026**

- **Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Razorpay**
  Developed and deployed a full-stack e-commerce platform with product browsing, authentication, cart, wishlist, checkout, orders and admin management.
- Built REST APIs with Node.js and Express.js and integrated MongoDB for products, users, orders, carts and wishlists.
- Integrated Razorpay payments and JWT-based authentication with protected user and admin routes.
- Implemented an AI-powered chatbot to assist customers with product-related queries. Live Demo

ChatApp - Real-Time Messaging Application | *Socket.IO* **September 2026 – October 2026**

- **Next.js, TypeScript, MySQL, Prisma ORM, Socket.IO**
  Developed a real-time chat application with user authentication, a people list, and a conversation interface.
- Implemented real-time messaging using Socket.IO for instant communication between users.
- Built message status functionality, including delivered and seen indicators.
- Used Prisma ORM with MySQL to manage users, conversations, conversation members, sessions, and messages.

Live Demo

Vivek Singh Portfolio | *React* **October 2026 – November 2026**

- **React, TypeScript, Tailwind CSS, Animation, Vercel**
  Designed and developed a responsive personal portfolio to showcase projects, technical skills and professional profile.
- Built reusable React components with TypeScript and Tailwind CSS for a responsive and maintainable UI.
- Added smooth animations and optimized the website for performance across desktop and mobile devices.
- Deployed the portfolio on Vercel with continuous deployment through GitHub.
